Thursday, March 5, 2020  
FOR IMMEDIATE RELEASE

**Earn up to \$75 for fixing a leak during the entire month of March**

*Sweetwater Authority's special rebate offer now available to all customers*

To assist customers with costs typically associated with leak repairs and to help conserve our most precious resource, Sweetwater Authority (Authority) is offering rebates of up to \$75 for repairs made in March 2020. The special month-long rebate is in celebration of the national Fix a Leak Week, which serves as an annual reminder to check household plumbing fixtures and irrigation systems for leaks.

In addition to rebates on leak repairs, the Authority will also be offering a \$75 rebate for customers who replace or install a new pressure reduction valve at their home.

For an application and additional information on how to apply for the rebate, please visit [www.sweetwater.org/fixaleak](http://www.sweetwater.org/fixaleak).

Minor water leaks account for more than a trillion gallons of water wasted each year in homes across the country. To promote the importance of repairing leaks as a means to conserve and protect everyone's water supply, Fix a Leak Week was created by the Environmental Protection Agency's (EPA) WaterSense program. The Authority goes beyond the EPA's week and offers this promotion for the full month of March.

To learn more about the rebate, or to schedule a free water audit for your home or business, please call the Authority's Water Efficiency helpline at (619) 409-6779 or email [waterefficiency@sweetwater.org](mailto:waterefficiency@sweetwater.org).

*Sweetwater Authority, a joint powers public agency, provides public water service to approximately 190,000 people residing in National City and the South Bay Irrigation District (which includes portions of Chula Vista and most of Bonita).*
