

“Water and Irrigation Workshop” to be Held November 6

Encinitas, CA—Olivenhain Municipal Water District invites the public to attend a free “Water and Irrigation Workshop.” The workshop aims to empower residents with strategies to improve water use efficiency. It will be held on November 6, from 5:00 p.m. to 8:00 p.m., at the Encinitas Community and Senior Center, located at 1140 Oakcrest Park Drive in Encinitas.

The workshop is designed for individuals interested in the latest irrigation advances that integrate water use efficiency and stormwater capture elements into landscapes. Participants will also learn about simple irrigation system retrofits and how to create a sustainable landscape.

The workshop is offered in partnership with San Dieguito Water District, Santa Fe Irrigation District, City of Encinitas, and San Diego County Water Authority.

“Collaboration with local water agencies is essential in our journey toward a sustainable water future,” said OMWD Board Director Larry Watt. “By harnessing advanced irrigation techniques, we can ensure responsible stewardship of our water resources for generations to come.”

Registration for the workshop is required at www.olivenhain.com/events.

#

Olivenhain Municipal Water District is a public agency providing water, wastewater services, recycled water, hydroelectricity, and operation of Elfin Forest Recreational Reserve. Organized in 1959, OMWD currently serves approximately 87,000 customers over 48 square miles in northern San Diego County.
