

## Water Agencies Offer Free Rain Collection Workshop

**Encinitas, CA**—Olivenhain Municipal Water District, San Dieguito Water District, and Santa Fe Irrigation District invite you to attend a free workshop on the benefits of collecting rainwater. The class is being held on January 24, from 10:00 a.m. to 11:30 a.m. at OMWD headquarters located at 1966 Olivenhain Road in Encinitas.

The workshop will cover the benefits of harvesting rainwater and what type of collection systems work best for different types of homes. The workshop will also review how to maintain a rain collection system and how to apply for applicable rebates.

Collected rainwater can be used on plants and gardens to offset monthly bills and helps reduce runoff pollutants from entering storm drains. It takes just a quarter-inch of rainfall on a 2,000 square foot roof to collect over 300 gallons of water.

After a presentation from Steve Sherman of California Landscape Technologies, an optional tour of OMWD's California-Friendly Demonstration Garden will be provided, which features a rain barrel and cistern.

For more information and to register for the workshop, visit [www.olivenhain.com/events](http://www.olivenhain.com/events). For information on rebates for rain barrels and other water-saving devices, visit [www.socalwatersmart.com](http://www.socalwatersmart.com).

# # #

*Olivenhain Municipal Water District is a public agency providing water, wastewater services, recycled water, hydroelectricity, and operation of Elfin Forest Recreational Reserve. Organized in 1959, OMWD currently serves approximately 87,000 customers over 48 square miles in northern San Diego County.*

*Formed in 1922, San Dieguito Water District is a public agency that provides potable and recycled water to over 5,600 acres and approximately 39,000 customers within the communities of Leucadia, Old Encinitas, Cardiff, and portions of New Encinitas.*

*Established in 1923, Santa Fe Irrigation District is a special district that provides potable and recycled water service to the city of Solana Beach, and portions of the communities of Rancho Santa Fe and Fairbanks Ranch.*
